Dear Physician:

In 2011, as a patient safety initiative, Aurora Health Care began requiring influenza vaccinations for all of its employees, similar to other required vaccinations such as MMR. For decades, influenza vaccination has been recommended for health care workers and has been shown in study settings to be effective in protecting patients. Your patient is requesting to be exempt from this vaccination. **Medical exemption from influenza vaccination is allowed ONLY for recognized contraindications** (CDC. Prevention and control of seasonal influenza with vaccines: Recommendations of the advisory committee on immunization practices (ACIP). MMWR August 18, 2011/ 60(Early Release);1-6). Please complete the information below regarding your patient's request for a medical exemption. Should you have any questions, please call Aurora's Employee Health and Wellness department at 920-893-4769.

Thank you,
Kathy Leonhardt, MD, MPH
